

How do I check if my HP printer is connected to the Internet?

For printers **with** a touchscreen

- 1 On your printer touchscreen panel, select **Wireless > Network Settings** *or* **Setup**
- 2 Print the **Network Configuration Page**
- 3 In the printout, under the “General Information” section, locate **Internet**, and check that it states **Connected**

HP Network Configuration Page	
Model : HP OfficeJet Pro 8020 series	
General Information	
Network Status	Ready
Active Connection Type	Wireless
URL(s) for Embedded Web Server	http://HP98223C
	http://192.168.1.122
Firmware Revision	MALBECPP1N001.2008C.00
Hostname	HP98223C
Serial Number	TH03B2R0WD
Internet	Connected

For printers **without** a touchscreen

- 1 On your printer control panel, press down these two buttons at the same time, to print the **Network Configuration Page**:

 **Wireless**  + **Information** 

OR

 **Wireless**  + **Start Copy Black** 

- 2 In the printout, under the “General Information” section, locate **Internet**, and check that it states **Connected**
